

# 200 LITRE POLY DRUM

The BR Plastics Open Top Plastic Drum is the perfect container for products that need to be packed and stored in bulk. With dimensions comparable to a steel drum, the 200 litre Poly Drum comes fitted with a removable poly lid, food grade sponge rubber gasket & quick release lever locking ring for ease of opening and resealing. Designed & manufactured in Australia for Australian conditions. The BR Plastics 200L Poly Drum is manufactured from Type 4 LLUV711 polyethylene which is used for food contact applications and is 100% recyclable. The 200L poly drum is durable, non-rusting and dent resistant.
